

Runner

- You work with the consignment teams and take the finished and tagged items out to the sales floor.
- Do not enter the consignment room, finished items will be placed on the big table, so if it's on the big table it can go out.
- Please don't ask consignment teams if "this is ready" they will put it on the table if it is.
- If you do not know where something is supposed to go, ask the merchandising chair or one of the other volunteers.
- This is not the time to shop
- Do not hide items so you can grab them later at the volunteer sale.
- Do not throw or drop items on purpose, these belong to our consigners and we should treat them as if they were ours.
- Do not place clothing or hats on the floor.
- Remember during your shift is not the time to shop

Your job is important! You make sure all the items make it from the consignment room out to the sales floor.
